## THE TRIBUNE.

### Diterary Notices.

THE AMERICAN ECLECTIC AND MUSEUM OF FOREIGN LIT-

ERATURE. Conducted by J. H. Agnew and E. Littell. 286 Broadway. March, 1849. This work comprises by far the best selection of foreign periodical literature now presented to American readers and must acquire, we think, a wide popularity. The present number contains articles from several of the ablest and best known reviews, besides copious extracts from the best weekly and monthly journals-presenting late scientific discoveries, mechanical inventions and whatever else would have a general interest for the great body of American readers. Among the ablest literary papers are the reviews of the "Souvenirs of M. Berryer," from the Edinburg's, of the "Glacial Theory," by Menchisar, from the Edinburgh Philosophical Journal, the article on English Criticism from the Westminster, that on the "Honey Bee" from the Quarterly, and many others which we have not space to mention. The selection is admirably adapted to the purposes of the work, which is very neatly printed. Each number is hereafter to conrain an engraving on steel, and the series is intended to embrace the whole range of Modern European Art, illustrating the different schools and presenting the works of the most distinguished Painters. The mezzotint in the present number is beautifully engraved by Sartain. The Eclectic deserves, what we are glad to learn it enjoys, a wide and increasing popularity.

THE MEDICO-CHIRURGICA REVIEW Quarterly. Vol 43, No. 91. January, 1843. R. & G. S. Wood, No. 161 Pearl street. This is an old and well-established Medical pub

lication of wide celebrity in England, and filled, so far as we can judge, with matter of general interest to the profession. It gives a record of all important modes of treatment, with full and independent reviews of all medical publications. Each number is a large, well printed octave of three hundred pages. It is edited by James Johnson. M. D. and H. J. Johnson, Esq. We observe in this number a notice of the celebrated case of amputation during mesmeric sleep, which created so much excitement in the foreign journals. The reviewer gives a very different account of the proceedings before the Royal Medico-Chirurgical Society where the extraordinary narrative was presented them by Dr. Elliotson, from that given by the Times and other newspapers. "The whole," he says, "amousted to this miserable non equitur, this 'lame and impotent conclusion,' that non-expression of pain is proof of its non existence!" "Is it not humiliating," he adds, "to medical science that a barrister, a physician and one or two surgeons should come forth in a learned and royal society to uphold such a piece of ratiocination as this at the present day? "

THE BOOK OF THE NAVY," No. 2, has just been published by D. Appleton & Co., at 200 Broadway. This is a most interesting and valua ble work, and presents a capital summary of the exploits of our gallant Navy, with eloquent tributes to the noble heroes who have acquired for themselves and the country they served, unfading laurels of honor and glory. The edition is very neatly

THOUGHTS ON SPIRITUAL SUBJECTS, from the French of Fenelon, has just been published by S. G. Simpkins, in Boston, and is for sale by C. S. Francis in this city. It is comprised in a neat volume and contains many admirable selections from that most amiable and excellent writer.

Naval Court Martist on board the U. S. ship North Carolina.
Tuesday, February 28.

The Court met as usual, and after the usua preliminaries the' proceedings were resumed by the examination of Peter Tyson and Joseph Sears, two of the apprentices on board of the Somers, whose testimony given on this occasion was identical with that given by them before the Court of luquiry-their cross-examination not eliciting anything of importance; and that of the latter not being concluded when the Court adjourned till 10 o'cleck Wednesday morning.

MUTILATION OF A MEMBER OF CONGRESS .-The predictions of the Editor of the Louisville Journal, as to the degree to which Mr. Sprigg of Kentucky would reflect honor upon the constituency that returned him to this Congress, seem to have been realized. Toward the close of the last Session he signalized himself in a fracas at the eating-house under the House of Representatives. and received a severe wound in his band from a collision with broken glass; and last night, at an enting-house in Pennsylvania Avenue, he got into a fight with a person named Drudge, a miller's cart-driver, which terminated in his opponenbiting the largest portion of his ear off! Dr Sewall did his best to repair the mischief, but the fregment of Mr Sprigg's ear, (which is now in the Doctor's possession.) was too much lacerated to be restored, and the Hon. Member will of course

carry the mark of the scuffle to his grave. Were this tale to be related in any subsequent "Notes for General Circulation," would it not be set down as a signal instance of the mendacity of travelers? And yet

And overcome us like a summires cloud.

B'thout our special wonders. [Com. Adv.

RAILROAD FAIR FROM ROCHESTER TO ALBANY. -We published the proceedings of the Railroad Convention last week. We learn the reduction of

fare on the railroads will take place the middle of next month, as follows : Distance. Time 1st class. 2d class. Rochester to Auburn .. 78 miles. 6 hours. \$1 95 \$1 17

2 35 \$6 17 \$S 77 251

Is the mean time, the canal packets are to be put in first rate order, and will be under way at ming of navigation. As competition is the life business, we may expect to see plenty of it the [Alb. Daily Adv. r t g season.

HEAR! HEAR!!-Sheridan once succeeded admirably in entrapping a noisy member of Parliament, who was in the habit of interrupting every speaker with "hear! hear!" He took an oppor tunity to allude to a well known political character of the time, who wished to play the rogue, but had only sense enough to play the fool. "Where," exclaimed Sheridan, with great emphasis, "where shall we find a more foolish knave, or a more knavish fool than this?" "Hear! hear!" was instantly bellowed from the accustemed beach. The wit bowed-thanked the gentleman for his ready reply to the question, and sat down amid convulsions of laughter from all but the unfortuate subject.

BY GREELEY & McELRATH.

OFFICE NO. 160 NASSAU-STREET.

NEW-YORK, WEDNESDAY MORNING, MARCH 1, 1843.

FIVE DOLLARS A YEAR.

WHOLE NO. 589.

For the Tribune The Alms House.

VOL. II. NO. 276.

MESSRS. EDITORS,-Believing that any information relative to the present organization of the Alms House would be acceptable at this time, I will endeavor to show you by a statement of facts that the present organization is good enough to be let alone, or at least that it needs but alterations. and that those can be made by the present Board by the cash. of Commissioners.

The public, with yourselves, appear to have formed very erroneous opinions concerning the establishment of a workhouse in connection with this institution. It would, I believe, be more in accordance with the dictates of humanity to have than with the alms house, by which these known as vagrants may be made to earn their living, and yield a revenue to the city, and not remain as they are now, associated with vice and crime of the very worst dve-in circumstances where reformation would be almost hopeless.

There is also an impression abroad that there is establishment, whereas precisely the reverse is the fact, as the following correct table will show:

There are 775 male inmates at Bellevue, independent of those in the Hospital, of which number

	Weavers and Winders. 50   Bakers. 22   Wheelwrights. 4   Masons. 7   Broom makers. 4   Barbers. 10   Boatmen. 15   Teamsters, &c. 10	Sheemakers 19 Failors 2 Failors 2 Blacksmiths 6 Fin Smiths 3 for rope shop 5 Forderlies and Ass't 44 Laborers in coal 4 Laborers in coal 44 Washhouse 6 Employed as coopers, gate keepers, gate keepers, gadlers, turners, soap 12 makers, croks and outchers, domestics, 8 CC
--	--	--

Making 324 employed in the various departments, to which may be added 276 more who are totally incapable of performing any kind of labor, consisting of those who are blind, paralytic, crippled, disabled by old age, &c.

By the above statement, it will be seen that about 175 remain, and this at a time when the institution contains 100 men more than ever were in it before; and these have been from time to time and now are employed (for want of better employment) at picking oakum. This number consists of men of all nations and of every age from youth to extreme senility, many with broken down or impaired constitutions, incapable of doing any given. Apply at 27 Howard-st. work of a more laborious nature.

For the correctness of all these statements, Committee of the Common Council or any citizen may satisfy themselves by an examination.

A statement of the Female Department will, (with your permission,) be given in a few days, with other useful information on this subject. Allow me next to present a similar stateme concerning the Female Department:

It will be seen that the number of those incapa ble of performing any kind of useful labor is larger in proportion than the men, but constitutes a sim

Women from being more industrious and temperate, and requiring less to maintain themselves. are of course fewer in number, (but more permanent residents,) than the men. The principal number of the women that are young and healthy, have infants, and form a part of those denominated Domestics, Scrubbers, &c. The whole number in the establishment. (and they are much mere numerous than that at any previous period,) is 480-of which number there are employed as fol-

lo	ws:	
	Nurses35	Shoe Binders 5
	Domestics18	Scrubbers 6
	Kitchens	Ironing13
	Spinning17	K sitting18
	Total	125

And 200 mere incapable of performing any kind of useful labor, consisting of lame, blind, simple subject to fits, extreme old age, &c. making 325 and leaving 155 who are employed in making such necessary articles as are specified in the Statement of Matrons who have that business in charge.

There have been made the past year, ending December 31, 1842, the following articles: Under garments 6823 Pillow cases 5446 Frocks 975 Bed ticks 53-5 Short gowns 904 Pillow ticks 5488

Petrocats 1419 Spreads 5.4 Shrouds 1464 Aprons 1833 Shirts 2838 Prs stockings knat 1246 Making 27,765 different pieces made and used in the department; and this by women of almost every age and condition, who could not earn their living by the needle in the world at large.

Of the Hospital I will only say there are about 350 patients, and some 50 men are constantly and usefully employed-having been taken from the Alms-House.

There is also a considerable number of men taken from the Alms-House for the Long Island Farms and Nurseries, and when unable to work they are sent back, and their places supplied as before stated.

There are also in the Colored Alms-House over 100 persons of both sexes (not included in these Statements,) being neither useful nor ornamental, and therefore not worthy of any particular consid-BELLEVUE. eration.

The Alabama Legislature has refused to receive the State's quota of the Land Distribution Fund. The State's finances are bankrupt, and her people are oppressed with taxation. The bill to lay off the State into Congressional Districts, upon the white basis alone, has passed both Houses and is now a law. A revenue bill, raising \$250, 000, passed the House and would pass the Senate. The Judges of the Circuit Court have all been reelected. The number of Judicial Circuits has been reduced to nine. What can a revenue of \$250,000 effect in a State which has a debt of more than \$18,000,000, and which requires about \$730,600 to defray expenditures for the present year. [American.

The editor of the Philadelphia Evening Journal has received a letter from a correspondent in Bradford country is that State, exposing the depravities of a professed minister of the gospel, a Mr. Lefever, who first won the affections of, and then seduced a young lady of his congregation. is stated that upon the disgrace of their child be ing disclosed to her parents, the father gave one gross, fell and expired, and the mother went into strong convulsions from which she has not yet re-

covered. Union of ALL THE FERRIES .- Petitions have been in circulation for some days past, and an application is now pending before the New York ommon Council to unite all the ferries between the cities of New York and Brooklyn under one lease, and the control of one company when the present leases of the Catharine and Jackson street

ferries shall have expired. [Brooklyn News. A WARNING .- A stage driver in Albany, was remarking the other day, that 15 years ago he drove a stage route of about 50 miles, upon which resided 5 drunken tavera keepers. Four of them have died of drunkenness, and the fifth is in the almshouse.

Travels in the West.

To Oregon and the Rocky Mountains: A full, clear, graphic and authentic account of the Far West, by Thomas J. FARNHAM, a recent Traveler to and Solourner on the Banks of the Columbia River-will be published March 1st by GREELEY & McELRATH in a Mammoth Extra Tribune of 96 large double column octavo pages, on new and beautiful type. Price 25 cents-5 copies for \$1 .-Orders from Newsmen, Booksellers, Postmasters and others are respectfully solicited. All orders must be accompanied

A STHMA CURED.—This most disputs tressing compilant, which builtes the skill of most physicians, is always cured by the use of Longley's GREAT WESTERN INDIAN PANACEA.

The following certificate will show one case from among many of a similar kind which have been lately received.

From James Bigler, Merchant, Newburgh, N. Y.

Col. Longley—Dear Sir: I deem it my duty to testify to the merits of your Panacea. My wife was severely afflicted with the Asthma, so that she could not steep or rest nights except by being kolstered up in a sitting posture. I protund a bottle of your Panacea, and gave her a table spootul. Soon after taking it she retired to hed and slept quietly through the night. The dose was repeated for several excessive nights, with like favorable results, until she was successive nights, with like favorable results, until she was restored to health, in using but a part of the hottle. I do no nesitate to say that this Panacea is a perfect cure for the Asthma, and that as a Cathartic I know not its equal. JAMES BIGLER.

FIRE! FIRE!! FIRE!!!—At any seaents by fire are of frequent occurrency, the subscribe long known and used with unparalleled success as a surand speedy cure for Burns from whatever cause, and in their worst stage. He would also state, that in almost all cases, if immediately applied, it will prevent blistering and the other unpleasant consequences which ensue, and would therefore advise every one to have a supply ready at hand. It is also an infallible remedy for chill-blains or trost-bites. In order to make it an inducement, and so that no one need be without it, he has it put up in pots at 2s and 1s each, with full directions for use. REUBEN E. MOSS

556 and 508 Grand-st. WHO CAN DOUBT THE VIRTUES
OF JAYNE'S HAIR TONIC!
SUMMERVILLE, N. J. Nov. 26, 1842.
Dr. Jayne: Dear Sir—I send you the following certificate obtained from Mr. Gulick. I would just state that I became acquainted with him about two years ago. At that time he was equively hald, with the exception of a lock of hair on

was entirely bald, with the exception of a lock of bair of the back part of his head, about the size of half a dollar, and that lock of hair he told me had been made to grow by the use of your Tonic; previous to which, he positively avers, that he had not a single hair on his head. The hair now covers his head completely, and is from four to five inches long. Very respectfully, yours, &c. P. Mason.
Another Proof of the Efficacy of Dr. Jayne's Hair
Tonic.—This will certify that I was entirely bald for about three years, when I was recommended to try Dr. Jayne's Hair Tonic. I procured two bottles of Mr. Mason, in Sumerville, and using the Tonic for about fitteen months, my hair came in all over my head, and, although not quite as thick as before, yet it is constantly growing. This surpris-ing restoration of my hair has excited the astonishment of all my acquaintances, and made rae an object of coriosity to many. I am now 55 years of age, and have reason to re-gard the inventor of this matchiess. Hair. Tonic as a public benefactor.

JOACHIM GULICK.

TAYNE'S EXPECTORANT.—This been recommended, by those who have given it a fair test in this country, and the demand for it increases daily. We have just beard of an important cure of Asikima, which has been effected by the use of it, in a neighboring town-the case was that of a female who had for a long time been un der the care of a physic an but had received no renet, and ber case was considered hopeless. As a last resort she pur-chased a bottle of Dr. Jayne's Expectorant, which caused saying that this preparation of Dr. Jayne for the cure of coughs, colds, indicate, asilma, consumptions, &c., is the most valuable medicine ever offered to the American public. There is no quackery about it-Dr. Jayne is one of the most skilful practising physicians in Penns, Ivania; and wherever his various preparations have been thoroughly tested, he is looked upon as a great public benefactor. Prepared only by Dr. JAYNE, No. 305 Broadway, New York

take pleasure in calling the attention of our readers to "SCARPA'S ACOUSTIC OIL," for the cure of icine ever offered to the public for curing this disease that we left a confidence in, and its effect in different cases which have come within our knowledge have been such as the most sanguine could wish. Persons have been circle and relieved who had given up all hopes of ever being benefited. It is a little surprising to us, while so many are sufferers from dealness, that no successful effort has been made sooner to produce something which would effect a radical cure. A

# SANDS'S SARSAPARILLA.

Improvement in whatever regards the happiness and we

fare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle, and our admiration glow at the ingenuity, the near approach to the standard of perfection, of the present time! Through the elaborate lavestigations of Physiology, or the science of LIFE, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies ing, and are a beautiful article for Andress and Visiting Cards, being of a clear white complexion, and a smooth glassy surface. The Pearl Surface Card, for a business card or for usual purposes, are the best in use; they are not surpassed by any other in point of quality, and are warrant-surpassed by any other in point of quality, and are warrant-surpassed by any other in point of quality, and are warrant-surpassed by any other in point of quality, and are warrant-surpassed by any other in point of quality. The beautiful simplicity of this mode of treatment is not only suggested by the pathelogy of diseases, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is thus that SANDS's SARSAPARILLA, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intriusic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this-one that would act on the liver, stomach and bowels with all the precision and petency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system The attention of the reader is respectfully called to the following certificates. However great achievements have heretofore been made by the use of this invaluable medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying it is a source of constant satisfaction that they are

nade the means of relieving such an amount of suffering, NEWARK, N. J. Dec. 13, 1842, Messars. Sands: Gent—Wards cannot capress the grath-tude I feel for your treatment to me, a stranger suffering under one of the most loathsome diseases tast na ure is capable of bearing. The disease with which I was afflicted commenced with inflammation of the eyes, in the year 1856, which caused almost total bindness. For this I was treated and finally relieved, but the remedies were such as to cause the development of a scrothloas affection on my left arm near the eibow.

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were beyond discription. I tried various remedies and consulted different Physicians in New-York and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by itse large quantity of mercury taken to cute the inflammation of my eyes.

on of my eyes.

My sufferings continued, the arm enlarged, tumours formed in different places, and in a tew months discharged, making ten running ulcers at one time, some above and some below the elbew, and the discharge was so offensive that ne person could bear to be in the room where I was—I then applied to another distinguished Physician who gold e amputation of the arm was the only thing that could save me amputation of the arm was the only limit that could save my life, as it was impossible to cure so dreamthat disease; but as I was unwilling to consent to it he recommended me to use (Swaim's Panacea treely, which I did without deriving out little benefit. "For three years I was unable to raise my hand to my head or comb my hair, and the scrofula now made its appearance on my head, desaroying the bone-in different places, causing extensive ulcerations, and I leared different places. different places, causing extensive ulcerations, and Heared it might reach and sestrey the brain—the head swelled very much, accompanied with violent pain, numerous external remedies were recommended, but they did no good.—About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpies, the Doctor advised me to go to the Hospital, for he did no understand my case; for the last few months I had been afflicted with a severe pain in both sides, at times so hard a could scarcely get my breath. A bashing cough constantly amoyed me, and this combined with my other maladles, rendered me truly miserable. Such, gentlemen, had been my situation for seven years of my life when I commenced the use of your Sarsaparitia, but as my case was considered hopeless, and the near prospect of a speedy dissolution seemed inevitable, I felt but little ensouragement to persevere. The persuasion of friends induced me to try your medicine, which in a few days produced a great change in my system generally, by causing an appetite, relieving the colors and diving me dreaming as success insuffer confidence. my system generally, by causing an appetite, relieving the pains, and giving me strength; as success inspires confidence, I was encouraged to persevere, my pains grew easier, my strength returned, food relished, the ulcers healed, new flesh formed, and I once more iclt within me that I might get well. I have now used the Sarsaparilla about two months and am like a different being. The arm that was to be amputated has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health is better than it has been for years past.

period of my life, and my general health is better than it basbeen for years past.

Health; what magic in the word! how many thousands have sought it in foreign lands and sonny chimes, and have sought in vain! Yet it came to me when I had given up to die, and as I feel the pulsations of health coursing through my veins, my whole heart and soul go forth in fervent gratitude to the author of all our sure mercles, that he has been graciously pleased to bless the means made use of. "Truly have you proved yourself the good Sensette to the Stillers of work frequence my like is Samuritan to the afflicted, for next to my Creator my life is indebted to you (or rather) the use of your invaluable Sarsa-parilla. The value of such a medicine is countiest beyond price, money cannot pay for it. I have been raised from death, I may say, for my friends and mysels thought it im-possible I conic recover. And now gentlemen suffer me to add mother proof certified too by my friends and guardians as a just acknowledgement of the varues of your health re-storing Sarsaparilla. That the afflicted may also use it and

enjoy the benefits it alone can confer, is the heartfelt, fervent wish of their and your friend.

MARTHA CONLIN. I know Martha Coolin and believe what she states in this incument to be perfectly true. JOHN POWER, document to be perfectly true. JOHN POWER,
VICAR GENERAL OF NEW-YORK,
Rector of St. Peter's Church
